

Intuit First-Quarter Revenue Grows 27 Percent

MOUNTAIN VIEW, Calif .-- (BUSINESS WIRE)--

Intuit Inc. (Nasdaq:INTU) today announced strong results for the first quarter of fiscal year 2008, which ended Oct. 31.

"We are pleased with the results of our first quarter," said Steve Bennett, Intuit's president and chief executive officer. "QuickBooks 2008 is off to a great start and Payroll and Payments growth continues to be strong. With the launch of TurboTax for the 2007 tax year coming next week, we're looking forward to another great year for Intuit."

First-Quarter 2008 Financial Highlights

- -- Revenue of \$444.9 million increased 27 percent from the year-ago quarter. Growth was driven by strong performance in Small Business and the acquisition of Digital Insight in February 2007.
- -- GAAP (Generally Accepted Accounting Principles) operating loss from continuing operations of \$103.2 million, compared with an operating loss from continuing operations of \$98.5 million in the year-ago quarter.
- -- GAAP net loss of \$20.8 million, compared with a net loss of \$58.9 million in the year-ago quarter. This represents a net loss per share of \$0.06, compared with a net loss per share of \$0.17 in the year-ago quarter. Results this quarter include a \$24 million pre-tax gain from the sale of outsourced payroll assets and a \$27 million gain from the sale of discontinued operations.
- -- Non-GAAP operating loss of \$55.7 million, compared with a non-GAAP operating loss of \$76 million in the year-ago quarter. Non-GAAP net loss per share was \$0.10, compared with a non-GAAP net loss per share of \$0.12 in the year-ago quarter.

Intuit typically posts a seasonal loss in its first quarter when it has little revenue from its tax businesses.

First-Quarter 2008 Business Segment Results

- -- QuickBooks revenue was \$146.9 million, up 9 percent over the year-ago quarter.
- -- Payroll and Payments revenue was \$131.3 million, up 5 percent over the year-ago quarter.
- -- Consumer Tax revenue was \$13.3 million, up 18 percent over the year-ago quarter.

- -- Professional Tax revenue was \$11.0 million, up 13 percent over the year-ago quarter.
- -- Financial Institutions revenue was \$72.2 million and includes the results of Digital Insight, which was acquired in February 2007.
- -- Other Businesses revenue was \$70.2 million, up 11 percent over the year-ago quarter.

Forward-looking Guidance

Intuit reaffirmed its previously given revenue and earnings per share guidance for the second quarter of fiscal 2008, which will end on Jan. 31, and provided operating income guidance for the first time. The company expects:

- -- Revenue of \$833 million to \$848 million, or growth of 11 percent to 13 percent.
- -- GAAP operating income of \$136 million to \$146 million, or a year-over-year decline of 37 percent to 32 percent. On a non-GAAP basis, operating income is expected to be \$185 million to \$195 million, or a year-over-year decline of 22 percent to 18 percent.
- -- GAAP diluted EPS of \$0.28 to \$0.30 compared with GAAP diluted EPS of \$0.40 in the year-ago quarter. On a non-GAAP basis, diluted EPS is expected to be \$0.34 to \$0.36, compared with non-GAAP diluted EPS of \$0.44 in the year-ago quarter.
- -- Excluding the impact of the acquisition of Digital Insight, the sale of outsourced payroll assets to ADP, discontinuing the Pro Series Express product and the deferral of approximately \$23 million of revenue from the second quarter to third quarter, Intuit would have expected second-quarter revenue growth of 8 percent to 10 percent and second-quarter non-GAAP diluted EPS of \$0.40 to \$0.42.

Intuit also reaffirmed its previously given revenue and earnings per share guidance for the third and fourth quarters, and for the full fiscal year 2008. Details are available on Intuit's Web site at <u>www.intuit.com/about_intuit/investors/earnings/2007</u>.

Webcast and Conference Call Information

A live audio webcast of Intuit's first-quarter 2008 conference call is available at <u>http://www.intuit.com/about_intuit/investors/webcast.jhtml</u>. The call begins today at 1:30 p.m. Pacific time. The replay of the audio webcast will remain on Intuit's Web site for one week after the conference call. Intuit has also posted this press release, including the attached tables and non-GAAP to GAAP reconciliations on its Web site and will post the conference call script shortly after the conference call concludes. These documents may be found at <u>http://intuit.com/about_intuit/investors/earnings/2007/</u>.

The conference call number is 866-244-4629 in the United States or 703-639-1176 from international locations. No reservation or access code is needed. A replay of the call will be available for one week by calling 888-266-2081, or 703-925-2533 from international locations. The access code for this call is 1158848.

About Non-GAAP Financial Measures

This press release and the accompanying tables include non-GAAP financial measures. For a description of these non-GAAP financial measures, including the reasons management uses each measure, and reconciliations of these non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with Generally Accepted Accounting Principles, please see the section of the accompanying tables titled "About Non-GAAP Financial Measures" as well as the related Table B and Table E which follow it. A copy of the press release issued by Intuit on November 15, 2007 can be found on the investor relations page of Intuit's Web site.

Cautions About Forward-Looking Statements

This press release contains forward-looking statements, including forecasts of Intuit's expected financial results; its prospects for the business in fiscal 2008 and beyond; and all of the statements under the heading "Forward-Looking Guidance."

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, without limitation, the following: product introductions and price competition from our competitors can have unpredictable negative effects on our revenue, profitability and market position; governmental encroachment in our tax businesses or other governmental activities regulating the filing of tax returns could negatively affect our operating results and market position; we may not be able to successfully introduce new products and services to meet our growth and profitability objectives, and current and future products and services may not adequately address customer needs and may not achieve broad market acceptance, which could harm our operating results and financial condition; any failure to maintain reliable and responsive service levels for our offerings could cause us to lose customers and negatively impact our revenues and profitability; any significant product quality problems or delays in our products could harm our revenue, earnings and reputation; our participation in the Free File Alliance may result in lost revenue opportunities and cannibalization of our traditional paid franchise; any failure to properly use and protect personal customer information could harm our revenue, earnings and reputation; our acquisition activities may be disruptive to Intuit and may not result in expected benefits; our use of significant amounts of debt to finance acquisitions or other activities could harm our financial condition and results of operations; our revenue and earnings are highly seasonal and the timing of our revenue between guarters is difficult to predict, which may cause significant guarterly fluctuations in our financial results; predicting tax-related revenues is challenging due to the heavy concentration of activity in a short time period; we have implemented, and are continuing to upgrade, new information systems and any problems with these new systems could interfere with our ability to ship and deliver products and gather information to effectively manage our business; our financial position may not make repurchasing shares advisable or we may issue additional shares in an acquisition causing our number of outstanding shares to grow; and litigation involving intellectual property, antitrust, shareholder and other matters may increase our costs. More details about these and other risks that may impact our business are included in our Form 10-K for fiscal 2007 and in our other SEC filings. You can locate

these reports through our website at <u>http://www.intuit.com/about_intuit/investors</u>. Forward-looking statements are based on information as of November 15, 2007, and we do not undertake any duty to update any forward-looking statement or other information in these remarks.

INTUIT INC. NOTES TO TABLE A

(A) The following table summarizes the total share-based compensation expense that we recorded for continuing operations for the periods shown. The share-based compensation expense that we recorded for discontinued operations for these periods was nominal.

	Three M	onths Ended
	October 3 2007	1, October 31, 2006
Cost of product revenue	\$ 2	76 \$ 218
Cost of service and other revenue	1,4	58 527
Selling and marketing	7,6	98 5,694
Research and development	7,8	81 5,210
General and administrative	9,3	42 6,970
Total share-based compensation	\$26,6 =======	55 \$18,619 == ========

- (B) In March 2007 we sold certain assets related to our Complete Payroll and Premier Payroll Service businesses to Automatic Data Processing, Inc. (ADP) for a price of up to approximately \$135 million in cash. The final purchase price is contingent upon the number of customers that transition to ADP. Due to actual customer attrition during the fourth quarter of fiscal 2007 and the first quarter of fiscal 2008, we currently estimate the maximum sales price to be approximately \$117 million. The assets were part of our Payroll and Payments segment.
 - In accordance with the provisions of Statement of Financial Accounting Standards (SFAS) No. 144, "Accounting for the Impairment or Disposal of Long-lived Assets," we have not accounted for this transaction as a discontinued operation because the operations and cash flows of the assets could not be clearly distinguished, operationally or for financial reporting purposes, from the rest of our outsourced payroll business. We will recognize the net gain on the sale of the assets as customers are transitioned pursuant to the agreement over a period not to exceed one year from the date of the sale. In the three months ended October 31, 2007 we recorded a pre-tax net gain of \$24.0 million in our statement of operations for customers who transitioned to ADP during that period. The total pre-tax net gain recognized from the inception of this transaction through October 31, 2007 was \$55.6 million.
- (C) Our effective tax rate for the three months ended October 31, 2007 was approximately 38%. Excluding a one-time benefit primarily related to executive stock compensation, our effective tax rate for that period was 36%. This differed from the federal statutory rate of 35% primarily due to state income taxes, which were partially offset by the benefit we received from tax exempt

interest income, federal and state research and experimental credits, and the domestic production activities deduction. Our effective tax rate for the three months ended October 31, 2006 was approximately 35% and did not differ from the federal statutory rate of 35% because state income taxes were offset by the benefit we received from tax exempt interest income, federal and state research and experimental credits, and the domestic production activities deduction.

(D) In August 2007 we sold our Intuit Distribution Management Solutions (IDMS) business for approximately \$100 million in cash. IDMS was part of our Other Businesses segment.

In accordance with the provisions of SFAS 144, "Accounting for the Impairment or Disposal of Long-lived Assets," we determined that IDMS became a discontinued operation in the fourth quarter of fiscal 2007. We have therefore segregated the net assets and operating results of IDMS from continuing operations on our balance sheets and in our statements of operations for all periods prior to the sale. Assets held for sale at July 31, 2007 consisted primarily of goodwill and purchased intangible assets. Because IDMS operating cash flows were not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows. We have segregated the cash impact of the gain on disposal of IDMS on our statement of cash flows for the three months ended October 31, 2007.

Revenue and net loss from IDMS discontinued operations were \$1.9 million and \$0.7 million for the three months ended October 31, 2007. Revenue and net loss from IDMS discontinued operations were \$11.6 million and \$1.7 million for the three months ended October 31, 2006. We recorded a \$27.5 million net gain on disposal of IDMS in the three months ended October 31, 2007.

INTUIT INC. ABOUT NON-GAAP FINANCIAL MEASURES

The accompanying press release dated November 15, 2007 contains non-GAAP financial measures. Table B and Table E reconcile the non-GAAP financial measures in that press release to the most directly comparable financial measures prepared in accordance with Generally Accepted Accounting Principles (GAAP). These non-GAAP financial measures include non-GAAP operating income (loss) and related operating margin as a percentage of revenue, non-GAAP net income (loss) and non-GAAP net income (loss) per share.

Non-GAAP financial measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same names and may differ from non-GAAP financial measures with the same or similar names that are used by other companies.

We believe that these non-GAAP financial measures provide meaningful supplemental information regarding Intuit's operating results primarily because they exclude amounts that we do not consider part of ongoing operating results when assessing the performance of the organization, our operating segments or our senior management. Segment managers are not held accountable for share-based compensation expenses, acquisition-related costs, or the other excluded items that may impact their business units' operating income (loss) and, accordingly, we exclude these amounts from our measures of segment performance. We

also exclude these amounts from our budget and planning process. We believe that our non-GAAP financial measures also facilitate the comparison of results for current periods and guidance for future periods with results for past periods. We exclude the following items from our non-GAAP financial measures:

- Share-based compensation expenses. Our non-GAAP financial ___ measures exclude share-based compensation expenses, which consist of expenses for stock options, restricted stock, restricted stock units and purchases of common stock under our Employee Stock Purchase Plan. Segment managers are not held accountable for share-based compensation expenses impacting their business units' operating income (loss) and, accordingly, we exclude share-based compensation expenses from our measures of segment performance. While share-based compensation is a significant expense affecting our results of operations, management excludes share-based compensation from our budget and planning process. We exclude share-based compensation expenses from our non-GAAP financial measures for these reasons and the other reasons stated above. We compute weighted average dilutive shares using the method required by SFAS 123(R) for both GAAP and non-GAAP diluted net income per share.
- -- Amortization of purchased intangible assets and acquisition-related charges. In accordance with GAAP, amortization of purchased intangible assets in cost of revenue includes amortization of software and other technology assets related to acquisitions and acquisition-related charges in operating expenses includes amortization of other purchased intangible assets such as customer lists, covenants not to compete and trade names. Acquisition activities are managed on a corporate-wide basis and segment managers are not held accountable for the acquisition-related costs impacting their business units' operating income (loss). We exclude these amounts from our measures of segment performance and from our budget and planning process. We exclude these items from our non-GAAP financial measures for these reasons, the other reasons stated above and because we believe that excluding these items facilitates comparisons to the results of other companies in our industry, which have their own unique acquisition histories.
- -- Gains and losses on disposals of businesses and assets. We exclude these amounts from our non-GAAP financial measures for the reasons stated above and because they are unrelated to our ongoing business operating results.
- -- Gains and losses on marketable equity securities and other investments. We exclude these amounts from our non-GAAP financial measures for the reasons stated above and because they are unrelated to our ongoing business operating results.
- -- Income tax effects of excluded items. Our non-GAAP financial measures exclude the income tax effects of the adjustments described above that relate to the current period as well as adjustments for similar items that relate to prior periods. We exclude the impact of these tax items for the reasons stated above and because management believes that they are not indicative of our ongoing business operations.
- -- Operating results and gains and losses on the sale of

discontinued operations. From time to time, we sell or otherwise dispose of selected operations as we adjust our portfolio of businesses to meet our strategic goals. In accordance with GAAP, we segregate the operating results of discontinued operations as well as gains and losses on the sale of these discontinued operations from continuing operations on our GAAP statements of operations but continue to include them in GAAP net income or loss and net income or loss per share. We exclude these amounts from our non-GAAP financial measures for the reasons stated above and because they are unrelated to our ongoing business operations.

The following describes each non-GAAP financial measure, the items excluded from the most directly comparable GAAP measure in arriving at each non-GAAP financial measure, and the reasons management uses each measure and excludes the specified amounts in arriving at each non-GAAP financial measure.

- (A) Operating income (loss) and related operating margin as a percentage of revenue. We exclude share-based compensation expenses, amortization of purchased intangible assets and acquisition-related charges from our GAAP operating income (loss) from continuing operations and related operating margin in arriving at our non-GAAP operating income (loss) and related operating margin primarily because we do not consider them part of ongoing operating results when assessing the performance of the organization, our operating segments and senior management or when undertaking our budget and planning process. We believe that the exclusion of these expenses from our non-GAAP financial measures also facilitates the comparison of results for current periods and quidance for future periods with results for prior periods. In addition, we exclude amortization of purchased intangible assets and acquisition-related charges from non-GAAP operating income (loss) and operating margin because we believe that excluding these items facilitates comparisons to the results of other companies in our industry, which have their own unique acquisition histories.
- (B) Net income (loss) and net income (loss) per share (or earnings per share). We exclude share-based compensation expenses, amortization of purchased intangible assets, acquisition-related charges, net gains on marketable equity securities and other investments, gains and losses on disposals of businesses and assets, certain tax items as described above, and amounts related to discontinued operations from our GAAP net income (loss) and net income (loss) per share in arriving at our non-GAAP net income (loss) and net income (loss) per share. We exclude all of these items from our non-GAAP net income (loss) and net income (loss) per share primarily because we do not consider them part of ongoing operating results when assessing the performance of the organization, our operating segments and senior management or when undertaking our budget and planning process. We believe that the exclusion of these items from our non-GAAP financial measures also facilitates the comparison of results for current periods and guidance for future periods with results for prior periods.
 - In addition, we exclude amortization of purchased intangible assets and acquisition-related charges from our non-GAAP net income (loss) and net income (loss) per share because we believe that excluding these items facilitates comparisons to the results of other companies in our industry, which have their own unique acquisition histories. We exclude net gains on marketable equity

securities and other investments from our non-GAAP net income (loss) and net income (loss) per share because they are unrelated to our ongoing business operating results. Our non-GAAP financial measures exclude the income tax effects of the adjustments described above that relate to the current period as well as adjustments for similar items that relate to prior periods. We exclude the impact of these tax items because management believes that they are not indicative of our ongoing business operations. The effective tax rates used to calculate non-GAAP net income (loss) and net income (loss) per share were as follows: 37% for the first quarter of fiscal 2007; 36% for the first quarter of fiscal 2008; and 36% for fiscal 2008 guidance. Finally, we exclude amounts related to discontinued operations from our non-GAAP net income (loss) and net income (loss) per share because they are unrelated to our ongoing business operations.

We refer to these non-GAAP financial measures in assessing the performance of Intuit's ongoing operations and for planning and forecasting in future periods. These non-GAAP financial measures also facilitate our internal comparisons to Intuit's historical operating results. We have historically reported similar non-GAAP financial measures and believe that the inclusion of comparative numbers provides consistency in our financial reporting. We compute non-GAAP financial measures using the same consistent method from quarter to quarter and year to year.

The reconciliations of the forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures in Table E include all information reasonably available to Intuit at the date of this press release. These tables include adjustments that we can reasonably predict. Events that could cause the reconciliation to change include acquisitions and divestitures of businesses, goodwill and other asset impairments and sales of marketable equity securities and other investments.
