Intuit Reports Early Season Results: TurboTax Unit Growth Accelerating Since Jan. 30

Company Reiterates Full-year Revenue Guidance

MOUNTAIN VIEW, Calif.--(BUSINESS WIRE)-- [Intuit Inc.](#) (Nasdaq: INTU) today released the first of three season-to-date updates for its fiscal year 2013 consumer tax offerings. Sales of TurboTax Online units picked up through early February, growing 32 percent from Jan. 30 to Feb. 16 versus the comparable prior-year period. Total federal units grew 29 percent in the same span.

Year to date through Feb. 16, total TurboTax federal units were down 7 percent compared to the same period last year.

"As we've noted, the tax industry got off to a slow start in January. Since the Internal Revenue Service opened e-file on Jan. 30, we've seen strong momentum in TurboTax Online," said Dan Maurer, senior vice president and general manager of Intuit's consumer group. "We're confident that we're on track and we have an aggressive plan to win."

As part of the company's second-quarter earnings announcement, Intuit today also reiterated full-year Consumer Tax revenue growth guidance of 8 to 10 percent and company revenue growth guidance of 10 to 12 percent. Further details are available in the second-quarter earnings release issued today.

Season-to-date TurboTax Federal Unit Data

	Comparable Prior-Year Period	Season Through Feb. 16, 2013	Percent Change Year-Over-Year	Jan. 30 - Feb 16, 2013 Change Vers Comparable Prior-Year Period
TurboTax Desktop	4,301,000	4,053,000	-6%	14%

Cautions About Forward-looking Statements

This press release contains forward-looking statements, including forecasts of Intuit's future expected financial results; expected shifts in revenue as a result of the late tax legislation; expectations regarding Intuit's growth; and its prospects for the business in fiscal 2013.

Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, without limitation, the following: inherent difficulty in predicting consumer behavior; difficulties in receiving, processing, or filing customer tax submissions; consumers may not respond as we expected to our advertising and promotional activities; product introductions and price competition from our competitors can have unpredictable negative effects on our revenue, profitability and market position; governmental encroachment in our tax businesses or other governmental activities or public policy affecting the preparation and filing of tax returns could negatively affect our operating results and market position; we may not be able to successfully innovate and introduce new offerings and business models to meet our growth and profitability objectives, and current and future offerings may not adequately address customer needs and may not achieve broad market acceptance, which could harm our operating results and financial condition; business interruption or failure of our information technology and communication systems may impair the availability of our products and services, which may damage our reputation and harm our future financial results; as we upgrade and consolidate our customer facing applications and supporting information technology infrastructure, any problems with these implementations could interfere with our ability to deliver our offerings; any failure to properly use and protect personal customer information and data could harm our revenue, earnings and reputation; if we are unable to develop, manage and maintain critical third party business relationships, our business may be adversely affected; increased government regulation of our businesses may harm our

operating results; if we fail to process transactions effectively or fail to adequately protect against potential fraudulent activities, our revenue and earnings may be harmed; any significant offering quality problems or delays in our offerings could harm our revenue, earnings and reputation; our participation in the Free File Alliance may result in lost revenue opportunities and cannibalization of our traditional paid franchise; the continuing global economic downturn may continue to impact consumer and small business spending, financial institutions and tax filings, which could negatively affect our revenue and profitability; year-over-year changes in the total number of tax filings that are submitted to government agencies due to economic conditions or otherwise may result in lost revenue opportunities; our revenue and earnings are highly seasonal and the timing of our revenue between quarters is difficult to predict, which may cause significant quarterly fluctuations in our financial results; our financial position may not make repurchasing shares advisable or we may issue additional shares in an acquisition causing our number of outstanding shares to grow; our inability to adequately protect our intellectual property rights may weaken our competitive position and reduce our revenue and earnings; our acquisition and divestiture activities may disrupt our ongoing business, may involve increased expenses and may present risks not contemplated at the time of the transactions; our use of significant amounts of debt to finance acquisitions or other activities could harm our financial condition and results of operation; and litigation involving intellectual property, antitrust, shareholder and other matters may increase our costs. More details about these and other risks that may impact our business are included in our Form 10-K for fiscal 2012 and in our other SEC filings. You can locate these reports through our website at <http://investors.intuit.com>. Forward-looking statements are based on information as of February 21, 2013, and we do not undertake any duty to update any forward-looking statement or other information in these materials.

Unit Data and Estimates Used

The unit numbers reported are based on weekly reports received by Intuit from its retailers and distributors as well as the number of units provided directly by Intuit. The numbers included in these updates are preliminary and include estimates, including estimates of sales by merchants that do not report their sales to Intuit. Although Intuit takes steps to verify the reliability of the unit data, Intuit believes that errors in the data reported by its retailers and distributors may impact its reported retail unit numbers on an immaterial basis.
