

Mint 'Trends' Goes Mobile

Intuit Launches Refreshed Mobile App for iOS 7

MOUNTAIN VIEW, Calif.--(BUSINESS WIRE)-- Mint's most-requested feature, "Trends", is now available in its Mint.com personal finance app for iPhone, iPad and iPod touch.

The latest mobile version of Mint from Intuit Inc. (Nasdaq: INTU) also sports a completely new look, refreshed for iOS 7 and making it easier for people on the go to see where their money is going.

Trends let mobile users track their spending, income, and net worth over time. It also helps users make smarter financial decisions by giving them a better understanding of their money.

Combines Innovation With Elegance

The redesign includes a simple and streamlined look that adopts the appearance of iOS 7. Users see a cleaner, simpler design with a bright and colorful interface that simplifies money management and budgeting. It allows users to check financial transactions and account balances and manage and track budgets anytime, anywhere. The latest version of Mint builds on the elegant and intuitive features that make it one of the leading online financial software management services. It lets users:

- **Track spending trends.** Provides customized reports and organizes spending information by category, merchant, account, date or tags to easily see where money is going.

(Photo: Business Wire)

- **Edit pending transactions.** Reintroduces the ability to manually enter and categorize cash or check pending transactions.
- **Organize all accounts.** Provides a complete overview of finances in one place.
- **Get personalized updates.** Delivers account alerts, bill reminders and personalized advice to help users save money.
- **Work on different devices.** Syncs data automatically. Changes made on one device, whether on the Web, iPhone, iPad, iPod touch or Android smart phone or tablet, flow to all devices.

- **Review finances without an Internet connection.** Stores data from the latest download to allow easier viewing of finances, anytime, anywhere.

“Our users trust Mint to help them manage their money so they can go about living their lives,” said Brian Tan, product manager for Mint. “That’s why we’re bringing the best of Mint to mobile, building on our track record of innovation to better serve the more than 70 percent of Mint users who rely on their mobile device to help them make smarter financial decisions.”

The newly redesigned Mint.com personal finance app is available for free from the App Store on iPhone, iPad and iPod touch. Mint is also available for Android smartphone and tablets at Google Play and on the Amazon Appstore.

Mint is helping people realize their dreams and achieve a better financial future for themselves and their families. Over the last three years, Mint has helped users create more than 6 million goals and save \$40 billion toward achieving those goals such as paying off credit card debt or saving for an emergency.
