

## **Annual Stockholder Meeting - Additional Questions**

**Question: Are there other M&As that you are looking into?**

**Answer:**

We think of M&A as a critical tool that can help us solve customer problems more quickly than we could ourselves, or to expand in an area where partnership may not be the ideal model. We believe that great innovation can happen outside our walls, and we are constantly scanning the market for talent, tools and businesses that could accelerate our strategy of being an AI-driven expert platform, and accelerate our five big bets.
